MEMORANDUM FOR: Assistant Director for Operations
THRU: Acting Executive

25X1A5A1

SUBJECT: Exploitation of [redacted]
[redacted]

25X1A5A1

REFERENCE: AD/OS Memo dated 10 May 1950, with enclosures

COAPS thinks the exploitation of this collection of documents should be handled by OO in conjunction with the NSCID 7 Committee (State, Navy, and Air have already expressed interest) and recommends that it go to the Projects Review Committee in two stages:

1. A Short-term Trial Run to ascertain benefits which may be derived: i.e., it is assumed [redacted] would loan microfilms for review here by ORE of that which has already been microfilmed. Maybe ORE can get more details by talking to [redacted] who is understood to be in Washington. If these two steps should be adequate, maybe an analyst from ORE and a linguist from FDB could go out to [redacted] for a more or less quick inspection of selected documents shown in your Enclosure A and paragraph 4 of the ORE memorandum of April 19th (Enclosure G).

2. If it is found to be really worthwhile, CIA could then assemble and brief a team of experts in the Polish language to give it a more long-range full treatment or at least a more detailed one at [redacted]. The Custodian of the Collection and [redacted] could probably offer some good suggestions in this regard.
